Release Rules

Blue Marlin only, are eligible for release points. This is strictly a release category, any such fish being landed may result in a disqualification or some other penalty at the discretion of the Rules Committee.

For the purposes of release points, a fish is considered released when the mate has grabbed the leader or the swivel has made contact with the rod tip in an area above the covering board. The hook may then be removed or the leader cut. In order to qualify for Marlin releases a minimum of two people must be on the boat. In order to score a release, a date and time stamped video of the fish must be presented to the Weigh Master or another Tournament Official during weigh station hours on the day of the release. Once you are certain you have a Blue Marlin hooked up, call Tournament Control and request a "Release Card". When the fish is at leader have a crew member hold the "Release Card" so the fish and "Release Card" are visible in the video. The video must identify the fish and "Release Card" and must also show the fish swimming away freely after the release. All fish eligible for release points will be scored as 100 points per release regardless of line class. Failure to abide by Billfish conservation rules may lead to disqualification by the Rules Committee. The winner will be determined as the boat with the greatest number of releases. In the event of a tie, the prize shall be awarded to the boat first reaching the winning point's total. The time used in determining all such awards will be Tournament Control radio log time.
